

BUILT FOR GOVERNMENT

An integrated solution to digitalize CITES workflows

CITES PROCESS

Ministry of Environment Denmark -

Self-service (front-end) & full F2 solution (back-end) to digitalize the service completely: implemented in 6 month

CITES Solution

Context

- New process system for import/export of endangered species
- 6-7000 cases a year
- End-to-end implementation in 6 months

Results

- 25% annual admin cost reduction
- More accuracy in approvals
- Case processing time reduced by 30%
- More secure and complies with International RGDP
- Reduced costs for citizens of more than 50%
- All case management in ONE system easy to transfer tasks and replace staff
- Full control and Transparency over the full operation steps
- Modern solution with higher user satisfaction
- Integration to custom and border control
- Export quota management dashboard
- Increased employee satisfaction
- Available in multiple languages

About CITES

CITES applications

Application for CITES permits

NOTE! The application portal will be closed on Tuesday 15 September from 4 pm to approx. 22 due to service window. Click below to apply for CITES permits and certificates via the Danish Environmental Protection Agency's digital application portal: NOTE! Unfortunately, the case processing time is currently over 4 weeks.

• Apply for CITES permits and certificates

You must use NemID to log in.

Click below if you want to know more about NemID for business:

- When can I use a private NemID in my company? (virk.dk)
- Order NemID employee signature (nets.eu)

Contact

For further information, contact the Danish Environmental Protection Agency's CITES section on 72 54 24 23 (weekdays between 9 and 12) or write to the CITES section at cites@mst.dk

Requester initiates application from ministry website

Personal data

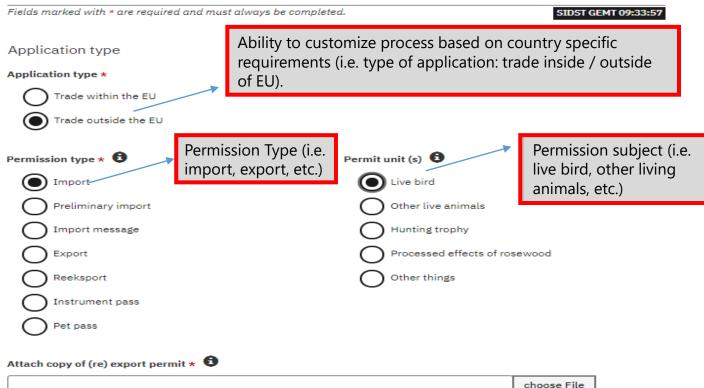

The Danish Environmental Protection Agency uses your information provided in the case processing, cf. the Data Protection Act and the EU Data Protection Regulation.

The Danish Environmental

Intelligent Application

Application for CITES permit or certificate

Data requested varies based on type of application which:

- Decreases the need to request additional information later
- Improves user experience by requesting only what's necessary

Intelligent Application

Application for CITES permit or certificate

Fields marked with * are required and must always be completed.

LAST SAVED 09:37:32

A maximum of 15 units can be applied for per. application. If you need to apply for more than 15 units, divide your application and make several applications with a maximum of 15 units per application.
